

Rattastic Discussions Magazine

#35

4th June 2021

Check out my new website!

rattastic-discussions.co.uk

I now have a Redbubble shop!

You can check it out here:

<https://www.redbubble.com/people/RattasticDiscus/shop?asc=u> or find it on my website.

Welcome to the June issue of Rattastic Discussions Magazine!

This magazine features the Marty Mouse House Class ob 2021! It's an honour to have an issue all about them! I remember when I was very new to the rat world and I found their page. I have followed it ever since. Back then it was Marty and he was a little darling. I'm so excited to be bringing this issue to you all!

As usual, I'm always looking for contributions to the magazine. If you'd like to submit something – be it an article, pictures, drawings or something else – please get in contact with me. You can send me a message via the Facebook or Instagram pages, or alternatively, you can email me at rattasticdiscussions@gmail.com

Hope you enjoy,

Caitlin

CLASS ob 2021

Marty Mouse House Class ob 2021 arrived home at the start of March. Before they could begin their studies, they had to embark upon a great adventure.

Vancouver Rat Club received a call about rats needing rescuing. Rescuers managed to get all the rats to safety and looked after them until they were ready to travel. Some were adopted in Vancouver, but many others were sent down to the United States to find their forever homes by way of a rat train.

Three little rats were waiting at Rattie Ratz Rescue, OR, to meet their Canadian brother and catch the train.

Introducing...

BEESELEY

(AKA THE BEEZ)

(LIKE THE MONIES)

NICKELS

CHIP

(HE'S CANADIAN)

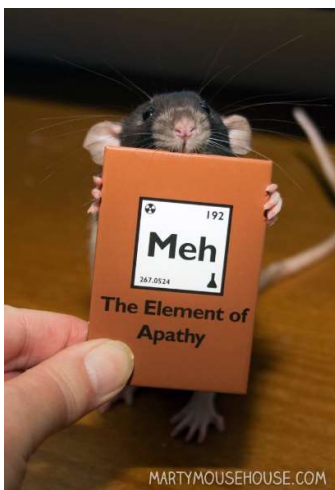

The boys got settled into their new home before lessons began.

The first day of school was mostly intros and offishul pictures. They all look very smart (and cute) in these photos!

They learned about the emotional elements – Ha, Meh and Ah.

The boys learned about the lesser adhesibe – tape.

Finally, they were able to learn about stapling in Stapling 101.

This was a very tricky class and lots of residoo breaks were required.

It's not all learning though, the boys have also enjoyed lots of yummy snacks like these pancakes!

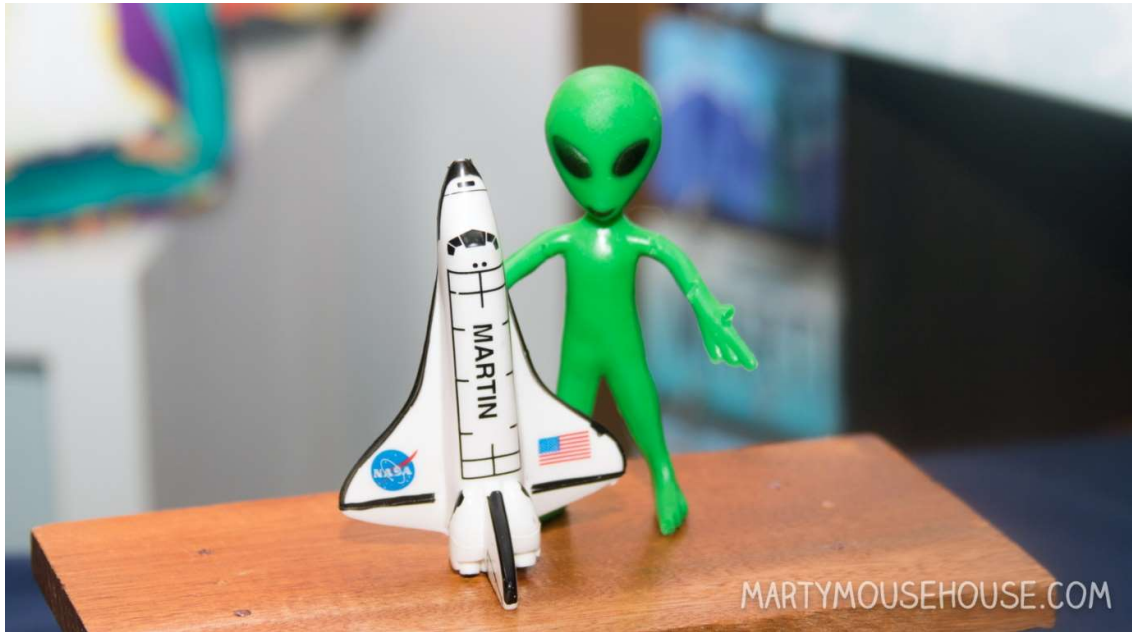

Space classes have now begun. So far, the boys have been able to examine Marty's space ship (that went to space and discovered the Yogie Planet) and more space classes are coming!

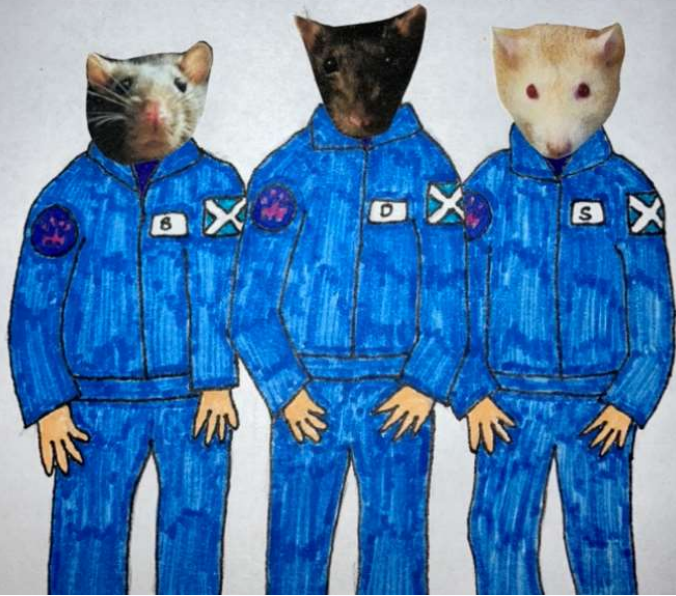

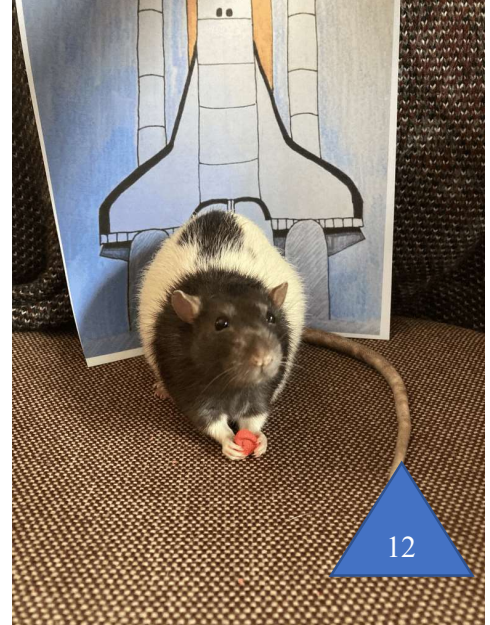

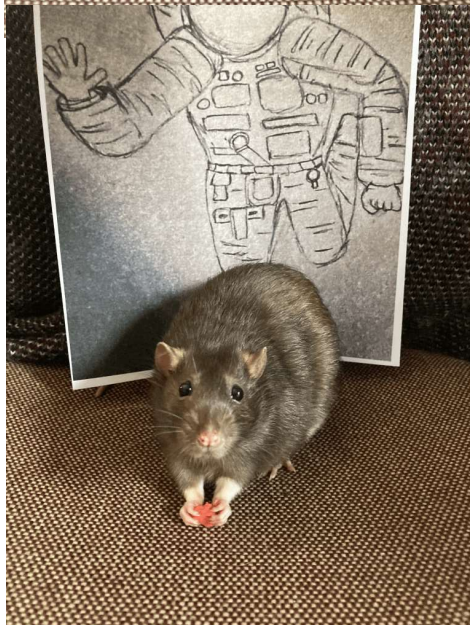

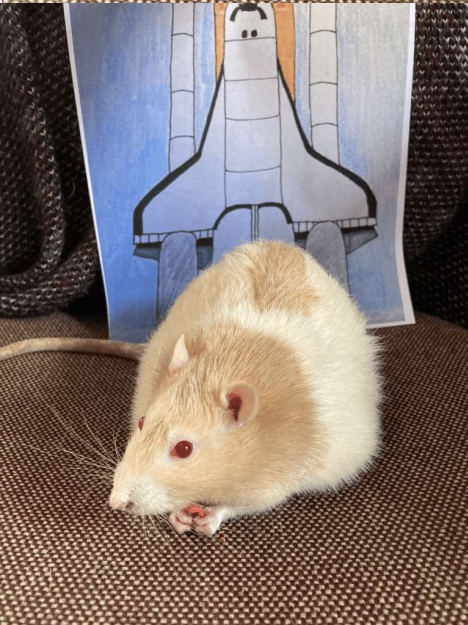

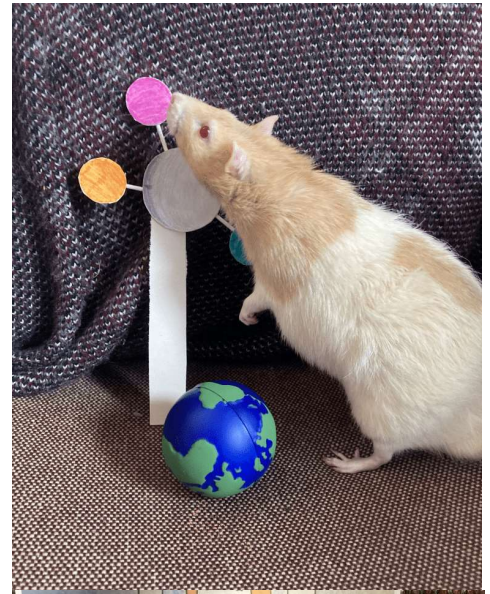

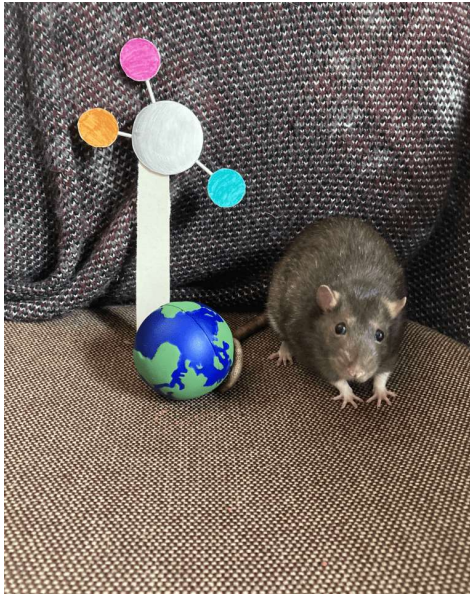

Larry is their teacher and he'll be teaching them about berry serious stuff (orbital mechanics and astro dynamics), so they better pay attention!

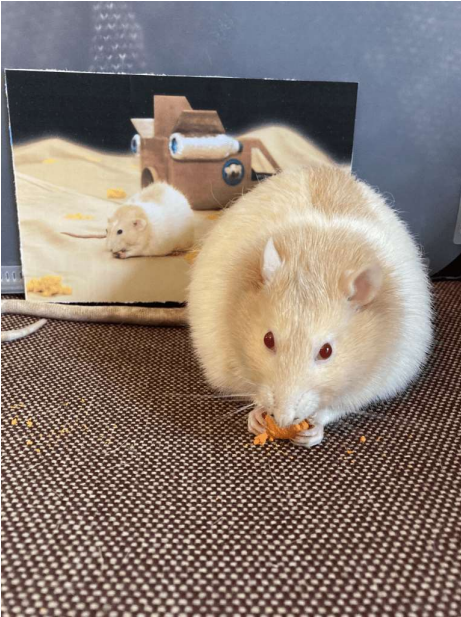

Rattastic Discussions Astronaut Training

Scout, Bailey and Darwin visited the Astronaut Training Centre (ATC) as part of their astronaut training.

The entrance hall at the ATC was full of the great Marty Mouse House astrorats of the past!

The boys visited the astrorat hall of fame!

The boys even got to see a replica of Marty's space ship!

Marty, Fibbs, Milo, Wimbley, Augie, Cosmo and Bean are an inspiration to Scout, Bailey and Darwin. They want to follow in their pawsteps and explore space too!

With their astronaut mission looming ever closer, Scout, Bailey and Darwin have announced what position they will fill for their mission and what question they plan to answer.

Commander

Pilot

Payload Specialist

The Rats of The Past

I can't remember where I first saw a post about Marty, (it was most likely in one of the MANY rat groups I'm a part of), but I fell in love immediately. He was such a charming little guy.

His full name was Martin Mouse – but his friends called him Marty. His Mom rescued him on the 6th May 2013 from PetSmart.

Marty was a smart rat and earned a PhD from McMasters University in Canada!

Marty invented the Sock Theory. This is where you get in a giant sock (which feels like you're getting a massive hug) when you feel anxious and turtle-turtle in it until you feel better.

Marty really was a spectacular rat and he was loved by so many people!

Marty conducted a lot of international business all around the world. His fans sent him mini license plates from where they lived to allow him to do business there. The MMH Business Challenge started out as a challenge to get Marty licenses from all fifty US states, but he ended up with licenses from all over the world!

After Marty went to Heaven, Wimbley, Milo and Fibbs carried on the family business. Wimbley was a crack poet and alien hunter, Milo was a renowned scientist, and Fibbs became president.

After them, it was Cosmo, Augie and Bean's turn. Cosmo did baffroom poetry and mobie rebiews, Augie was America's sweetheart (I mean look at those soft, grey curls), and Bean became King.

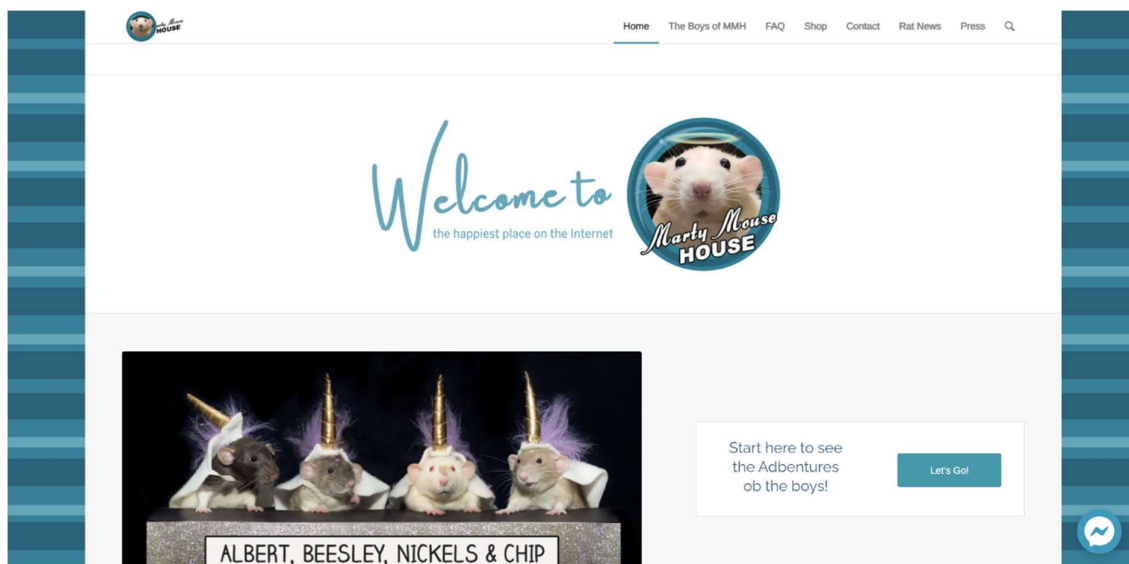

I've got to say, I approve of Bean's hat!

Pictured below are Fibbs our Foreber President (his policy was donuts), and Bean the crowned King.

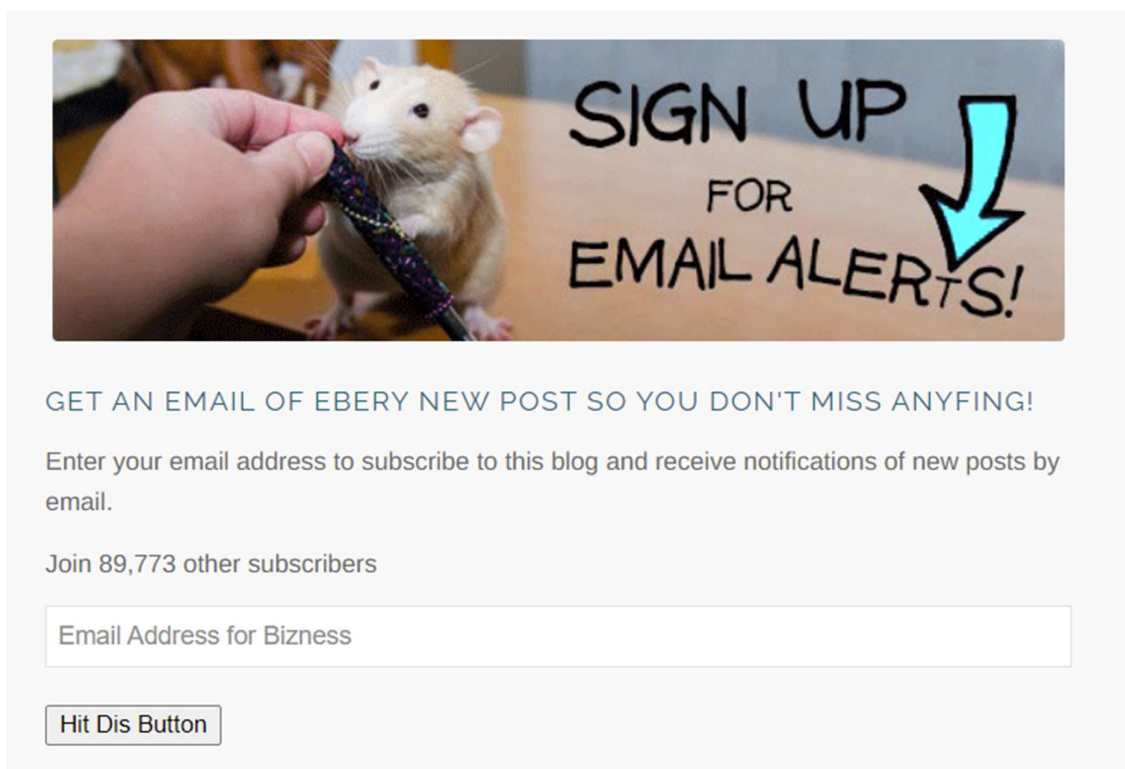

I have barely touched on some of the amazing adventures the boys at Marty Mouse House have had. If you want to find out more about them, you can find them at <http://www.martymousehouse.com/>.

It really is “the happiest place on the internet”

You can sign up for email alerts on their website so you’ll never miss a post!

You can also follow their adventures on Facebook (Marty Mouse House), Twitter (@RealMartyMouse), and YouTube (<https://www.youtube.com/channel/UCKMotyVHbSbgzZYQRSRKgHA>).

Our New Shop

Rattastic Discussions now has a Redbubble shop! It's currently only got one design on it but more are coming very soon.

Since we are now doing our own bizness, Scout, Bailey and Darwin thought it was important to learn some bizness lessons just like Chip, Nickels, Beesley and Albert.

Here they are learning about the lesser adhesibe – sellotape!

They also got to learn about staplers too (because no bizness education is complete without knowing how to use a stapler).

Here are some of the products you can find in our store:

You can check it out here: <https://www.redbubble.com/people/RattasticDiscus/shop?asc=u> or find it on my website.

Thank you for reading!
